EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2024 - 2028	Computer Science and Engineering	Bharati Vidyapeeth's College of Engineering	**9.63/10**
2023 - 2024	Class XII, CBSE	St. Cecilia's Public School	**92.6%**

EXPERIENCE

AI/ML and Research Intern | ISSA, DRDO, New Delhi **JUNE 2026 - JULY 2026**

- Developed scalable Python pipelines for IMD NetCDF climate datasets, automating geospatial extraction and preprocessing for large-scale meteorological data.
- Built and optimized **deep learning models (MLP, LSTM & GRU)** for rainfall forecasting using spatio-temporal features derived from rainfall, temperature, and elevation data for various grid points of Chamoli district in Uttarakhand.
- Automated **model training**, **chronological validation**, **JJAS** evaluation, visualization, and **regression-metric** comparison workflows.

Virtual Internship on AI and Data Analytics | Shell India Pvt Ltd, AICTE **JULY 2025 - AUG 2025**

Project: EV Adoption Forecasting | GitHub | Live Demo

- Built an **EV adoption forecasting** app with **Python**, preprocessing, **IQR** outlier handling, **EDA**, **feature engineering**, and **ML prediction** workflows.
- Deployed **Streamlit** analytics for infrastructure planning with **model evaluation**, **visualization**, and **user-facing forecasts**.

PROJECTS

TeamFlow - React, TypeScript, Node.js, Express.js, MongoDB, Socket.io, Supabase | GitHub | Live Demo

- Built a full-stack project delivery workspace with **20+ REST APIs**, **role-based access control**, project-specific teams, task dependencies, review workflows, audit logs, and real-time notifications using React, TypeScript, Node.js, Express.js, MongoDB, Socket.io, and Supabase.
- Implemented **JWT authentication**, bcrypt password hashing, and **4 workspace roles** - Owner, Admin, Member, Viewer - with backend-enforced permissions for member management, task updates, submissions, and approvals.
- Integrated **private Supabase signed uploads/downloads** and added **Vitest/Supertest** tests covering RBAC, circular dependency prevention, invite flows, task submissions, reviews, comments, and notifications.

AyushScan - Python, Flask, REST APIs, SQLite, Gemini API, OCR | GitHub | Live Demo

- Developed a **full-stack healthcare cost analysis platform** enabling medical bill scanning, overpricing detection, and price comparison against the Jan Aushadhi dataset.
- **Integrated OCR-based bill processing**, Gemini-powered bill analysis, multilingual AI assistance (English, Hindi), and PM-JAY (Ayushman Bharat) coverage recommendations.
- **Implemented secure authentication**, OTP-based password recovery, user dashboards, and location-based hospital discovery using **OpenStreetMap APIs**.

ACHIEVEMENTS

- **Secured 1st Position** in CSE Department for Academic Excellence (Semester 3) with SGPA 9.77.
- **Won 1st Position** among 100+ teams in Prompt-to-Product: Build with Gemini, pitching NeuroAdapt AI, an AI-powered adaptive learning extension.
- **Solved 400+ Data Structures and Algorithms problems** across leading competitive programming platforms, strengthening expertise in algorithms, data structures, and optimization techniques.
- **Achieved a LeetCode Contest Rating of 1901, reaching Knight level.**
- Secured **Rank 1263** among **24,000** CodeChef Division 4 participants, achieving a **Top 5.3%** global finish.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, Java, JavaScript, TypeScript, SQL
- **Frontend Development:** React.js, React Router, TanStack Query, Zustand, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend Development:** Node.js, Express.js, Flask, RESTful APIs, Socket.io, JWT, bcrypt, Zod, Authentication, API Integration
- **Databases, Tools & Deployment:** MongoDB, Mongoose, MySQL, SQLite, Supabase Storage, Git, GitHub, Version Control, Vercel
- **AI/ML & Data Science:** NumPy, Pandas, Scikit-learn, XGBoost, PyTorch, TensorFlow, OpenCV, GeoPandas, Plotly, Recharts, MLP, LSTM, GRU
- **Core CS & Software Engineering:** Data Structures & Algorithms, OOP, Design Patterns, DBMS, Operating Systems, Computer Networks, RBAC
